

MY CAREER GOAL — CYBER SECURITY EXPERT

A JOURNEY TOWARDS PROTECTING
THE DIGITAL WORLD

WHAT IS CYBER SECURITY?

- Cyber Security means protecting data and systems from digital attacks.
- It ensures safe communication and privacy in the digital world.
- It is a core branch of Computer Science and Engineering.
- Cyber Security covers areas like network protection, cryptography, and digital forensics.
- It's the digital shield that keeps our online world safe.

WHY I CHOSE CYBER SECURITY

- I am passionate about technology and problem solving.
- I want to help protect people and organizations from cybercrimes.
- The field offers exciting challenges and career growth.
- The idea of fighting cyber threats motivates me every day.
- Cyber Security allows me to turn curiosity into contribution.

SKILLS I WANT TO LEARN

- Ethical Hacking & Penetration Testing
- Networking and System Security
- Programming (Python, Java, C)
- Risk Management and Cryptography
- AI-based Threat Detection and Cloud Security
- Strong problem-solving and teamwork skills

MY EDUCATION & TRAINING PLAN

- Pursuing B.Tech in Computer Science & Engineering (CSE).
- I will take certifications like CEH, CompTIA Security+, and CCNA Security.
- I plan to participate in cybersecurity workshops and hackathons for real-world experience.
- Learning from online platforms like Coursera and Udemy will help me stay updated.

MY FUTURE CAREER GOALS

- Work as a Cyber Security Analyst in a reputed company.
- Later become a Security Consultant or Ethical Hacker.
- Contribute to building a safer internet for all.
- My short-term goal is to gain industry experience in leading IT companies.
- In the future, I wish to establish my own Cyber Security Training firm.

CONCLUSION – MY VISION

- Technology is growing — so are cyber threats.
- My dream is to protect people from these threats.
- “Cyber Security is not just a job, it’s a responsibility.”
- I believe protecting information is protecting the future.
- My mission is to become a Cyber Guardian for the digital world.

Thank You!
